East Coast Regional Meeting

'Earn 'dough' for your photo!'

Presented by Rose Taylor and Andy Simmen
from Science Photo Library

Every day clinical photographers take photographs for a patient's medical record, teaching materials or published in medical journals. Some of these images can earn your department money if they are sent (with appropriate consent) to a stock photography library. This talk explains the process to generate additional income and see your images used to their full potential.

Thursday 25th January 2018

6.00pm Buffet reception, kindly sponsored by SPL
6.30 pm Presentation

Medical Photography Department
(A212 - in the new build of the hospital)
Broomfield Hospital
Chelmsford, Essex CM1 7ET
